Nikole would do best in a Christian family with a single mother, in which she can be the only child; however, her caseworker will consider all family types. She will need to remain in contact with her grandmother following placement. Nikole would love to have pets in her home. Financial assistance may be available for adoption-related services.

For Oklahoma children, both home studied and non-home studied Oklahoma families are encouraged to inquire; only home studied families from other states should do so.
