Eva is known to be a sweet girl with a fun personality! Video games are one of her biggest passions; give her controller and she may want to show off her gaming skills. Blue is her most desired color, and dogs are a must for this girl. Eva adores the characters from Five Nights at Freddy's, the video game. She is great at puzzles and enjoys doing them with others.

This sixth grader adores recess.

Eva would do best in a family with a mom and a dad, where she can be the youngest or only child in the home. Ideally, this home would be in an urban area. Eva's caseworker notes that she will attend church with a family but does not have a preference for religion. She has significant connections to maintain following placement. Financial assistance may be available for adoption-related services.

For families outside of Utah, only those families who have completed home study are encouraged to inquire.
